Experience of tutoring

Please explain the reason for your rating in question 1

- I do feel that tutorials answer my queries from the lecture.
- There was mostly a clear relationship, sometimes I felt that the tute questions were a bit more in-depth than what was covered in the textbook and lecture, which is fine. However, as our quiz questions were based off the tute questions this felt a bit unfair.
- Very good tutor! Well informed, funny, relaxed and he is very talented in explaining problems so its easy to understand.
- agree the questions in tutorial are just from professor so surely they have a clear relationship.
- direct connection: i think the questions in the tutorials were fabulous in building on the lectures' content.

Please explain the reason for your rating in question 2

- As a visual learner, I liked the use of the whiteboard (and appreciated the neat handwriting!)
- Explanation are clear and delivered in laymen terms to be easily understood by students.
- In general, it was very clear - at a couple of points Nabeeh got a bit confused but it was fine because he got back on track and it showed the more likely mistakes people make which perhaps was actually beneficial.
- Nabeeh was easily able to illustrate the questions and the information within said questions. He would always draw diagrams and graphs (if it was necessary) and these specifically helped me a lot.
- Tutor actually was able to explain better than the lecturer
- almost tutorials questions can be explained clearly.
- some clear but have some questions doesn't explain clearly even has different answers to the same question in two classes

Please explain the reason for your rating in question 3

- Every questions is discussed in detail and tutor make sure all students understand his explanation.
- In the first half of the semester yes! however, in the last few weeks he wanted us to work through the work our self and ask questions, but I find that this was not a good use of time because for some questions I really needed the thorough work through on the board as a class. I already worked through these questions at home before the tutorial, and come to the tutorial to get the answers/solutions and see what I did and didn't do wrong. Maybe we could be given an extra question to work through at the end of class, I just really found it not helpful to not be told the answers because I have a few unanswered tute questions because I couldn't figure them out!
- It was helpful that the quizzes reflected the tutorial questions that were required for each week
- Very clear at the start
- clear on expectation and give us space to have a extensional thoughts
- yes, i was well prepared for the exams and post the exam also he guided me well

Please explain the reason for your rating in question 4

- A clearly very good understanding
- Tutor actually was able to explain better than the lecturer
- Tutor introduce related information not covered in lecture but is helpful for us to understand the curriculum.
- he can answer some of my extensional questions.

Please explain the reason for your rating in question 5

- Always prepared
- He always handed quizzes back on time, always had the materials necessary to run each tutorial. On occasions, he even provided us with resources where we could get more information.
- Occasionally he shows the ability to memorise tutorial questions, indicating a thorough preparation.
- he pints out assessment questions but doesn't check if the tutorial questions have been uploaded
- yes, everything was always ready including numerical calculations

Please explain the reason for your rating in question 6

- Engagement is encouraged by tutor.
- He was more than willing to answer questions posed by individuals and encouraged us to engage in the tutorial by giving our thoughts, answers and questions in each weeks tutorial.
- I felt as if Nabeeh was genuinely interested in my understanding - rather than just writing out answers like some of the other tutors he took the time to ensure everyone understood to at least a basic level and that was fantastic.
- he can sense us if we have questions, and offer helps

Please explain the reason for your rating in question 7

- I was overall satisfied, but the last few weeks when we were told to work through the question ourself to get the answer, but not actually showing how to do the answer was not satisfactory for my learning style personally. I felt I needed the entire work through on the board to see the step by step process of how to get the answer and understand the logic behind the answer. Apart from the questions we have to work through ourselves this tutor was very good and helpful!
- My questions are always answered.
- Overall, he was an excellent tutor.
- The tutor explained questions in a very interesting way to help us to understand different difficult questions. Very nice!
- Very much agree - a good tute
- satisfy but I think he can do better
